3. Do you believe government supported incentives (tax credits, rebates, etc.) are necessary to help citizens secure solar energy systems for their homes? **NO**

4. What is your opinion of rooftop solar? Utility scale solar? Is one better than the other or are they equally important? Why? **EQUALLY IMPORTANT, BECAUSE THEY BOTH MOVE US AWAY FROM FUEL.**

5. It was necessary to eliminate Net Energy Metering because customers with solar energy systems were not paying their fair share of maintaining the electrical grid.

Strongly Agree | Agree | **Disagree** | Strongly Disagree | No Opinion

6. Customer rooftop solar systems benefit the utility and customers without solar.

**Strongly Agree** | Agree | Disagree | Strongly Disagree | No Opinion

7. Customer rooftop solar systems are an important component to reaching the state's 100% RPS goals.

**Strongly Agree** | Agree | Disagree | Strongly Disagree | No Opinion

8. The solar industry in Hawai'i is an important part of the state's economy.

**Strongly Agree** | Agree | Disagree | Strongly Disagree | No Opinion
