The Taxpayer Protection Pledge is a project of Americans for Tax Reform (ATR). ATR works with taxpayer groups and activists around the country to ask all candidates and elected officials to make this important commitment to taxpayers. The national list of signers can be accessed at [www.ATR.org](http://www.ATR.org).

\* SEE REVERSE. If my systemic changes are not "REVENUE-NEUTRAL" ENOUGH

FOR YOU, I FEEL FREE TO DISREGARD THIS PLEDGE.

On the federal level, I support completely changing the present income tax system to a "fair tax" system as espoused in <http://www.fairtax.org/site/PageServer> . This will undoubtedly have the effect of raising taxes for some consumers and lowering taxes for others, but if implemented properly it would be "revenue neutral."

On the state level, I support a flat tax on all income above the poverty level – no deductions of any kind. Income below the poverty level would be tax-free. This will undoubtedly have the effect of raising taxes for some taxpayers and lowering taxes for others, but if implemented properly it would also be "revenue neutral."

If these positions are not in line with your ideology, please do not include my name in your database.
